Vijayawada, Andhra Pradesh | [+91 7981812954](tel:+917981812954) | lellakishan92@gmail.com | [linkedin.com/in/kishan-lella-91018b349](https://www.linkedin.com/in/kishan-lella-91018b349)

PROFESSIONAL SUMMARY

Entry-Level Data Analyst with hands-on experience in SQL, Power BI, Python, Excel, DAX, and Power Query. Skilled in ETL, data modeling, dashboard development, KPI reporting, and data visualization. Built end-to-end analytics solutions using datasets of over 1.8 million records, transforming raw data into actionable business insights through interactive dashboards.

TECHNICAL SKILLS

SQL & Databases: SQL, MySQL, Joins, CTEs, Window Functions, Aggregate Functions, Query Optimization

Business Intelligence: Power BI, DAX, Power Query, Data Modeling, Star Schema, Measures, Calculated Columns, Relationships

Programming: Python, Pandas, NumPy, Matplotlib, Seaborn

Excel: Advanced Excel, Pivot Tables, VLOOKUP, XLOOKUP, Lookup Functions

Data Analytics: ETL, Data Cleaning, Data Transformation, Data Wrangling, Data Profiling, Data Validation, Dashboard Development, KPI Reporting

Tools: JupyterLab, MySQL Workbench, Microsoft Office

PROJECTS

Ride IT – Driver Engagement Analysis

Power BI, SQL, Power Query, DAX

- Designed a Star Schema model across two datasets (1.8M+ and 36,000+ records) with a custom Power Query date dimension for scalable, time-based reporting.
- Built DAX measures for Acceptance Rate, Ride Completion Rate, and Driver/Passenger Cancellation Rate to track core operational KPIs.
- Developed a three-page interactive Power BI dashboard to analyze driver engagement, operational performance, and monthly demand trends across 1.8M+ ride records.
- Performed driver segmentation and trend analysis to identify operational insights and improve business decision-making.

Credit Card Customer Churn Analysis

Power BI, SQL, Power Query, DAX

- Designed and developed an interactive Power BI dashboard analyzing customer churn, retention trends, and customer behavior across 15,000+ records.
- Performed ETL, data cleaning, and Star Schema modeling using Power Query to prepare data for analysis.
- Developed DAX measures for Churn Rate, Retention Rate, Customer Lifetime Value (CLV), and Credit Utilization.
- Identified key churn drivers via customer segmentation, delivering actionable retention recommendations.

EDUCATION

Amrita Sai Institute of Science and Technology

2022 – 2026

B.Tech, Electronics and Communication Engineering | CGPA: 7.5/10

Sri Rajah S.V.R.G. Narasimha Rao Junior College

2020 – 2022

Intermediate (MPC) | Percentage: 60.9%

St. Mary's English Medium High School

2019 – 2020

SSC | Percentage: 95.7%

CERTIFICATIONS

- Oracle Certified Associate – MySQL Implementation Certified Associate
- Learning Microsoft Power BI – Infosys Springboard
- Python Programming – GeeksforGeeks
- Introduction to Entity Relationship (ER) Modeling – Infosys Springboard
- TCS iON Career Edge – Young Professional
